Supply & installation

What we deliver

OnWood supports projects from technical review and design coordination through manufacturing, supply, site coordination and installation. Core scope includes kitchens, wardrobes, dressing rooms, vanity units, built-in furniture and architectural joinery.

CAPABILITIES

Manufacturing & project supply

A practical scope designed for package pricing, technical coordination and site execution.

01

Custom Kitchens

Project-specific kitchens with coordinated materials, finishes and installation.

02

Wardrobes & Dressing Rooms

Custom storage systems, dressing rooms and built-in cabinetry.

03

Architectural Joinery

Joinery packages for fit-out and interior project requirements.

04

Vanity Units

Bathroom vanity cabinets coordinated with project dimensions and finishes.

05

Built-in Furniture

TV units, fixed furniture and tailored built-in pieces.

06

Supply & Installation

Production, delivery, site coordination and installation as one package.

PROJECT WORKFLOW

From RFQ to installation

A clear workflow for procurement teams and contractors.

01

Technical Review

BOQ, drawings, scope, quantities and specifications are reviewed before pricing.

02

Commercial Offer

Materials, finishes, quantities, delivery requirements and commercial terms are aligned.

03

Manufacturing

Approved project items move into production with technical coordination and quality follow-up.

04

Supply & Installation

Delivery, site coordination and installation are completed according to the agreed project package.
